

FOLORUNSHO AHMED

PROFESSIONAL SUMMARY

Data-driven developer skilled in creating responsive, user-centric web applications. Expert in JavaScript, React, NextJS and CSS, and more with strong problem-solving abilities and focus on innovative solutions. Passionate about optimizing performance and enhancing user experience through cutting-edge technologies.

EXPERIENCE

Lead Front-End Developer

June 2024 - Present | Mansior, Lagos, Lagos State

- Led front-end development for a real estate platform, improving user experience and optimizing site performance.
- Collaborated with back-end teams to integrate APIs and enhance property management functionalities.

Full-Stack Developer

December 2023 - June 2024 | Freelance, Lagos, Lagos State

- Developed and deployed a responsive web application that improved user engagement by 40% within 2 months, enhancing the overall user experience.
- Implemented RESTful APIs and microservices architecture, which increased application performance and reduced load.
- Utilized JavaScript frameworks like React and Node.js to build scalable applications, contributing to successful project completions ahead of deadlines.

Front-End Developer

January 2023 - November 2023 | Adian Labs, Nigeria

- Developed and maintained front-end features using React.js, contributing to a dynamic team environment.
- Assisted in debugging and testing UI components for responsive design and performance.
- Nigeria

Front-End Intern

April 2022 - September 2022 | Global Axis, Lagos, Lagos State

- Supported the front-end team in building UI components and fixing bugs.
- Gained hands-on experience in HTML, CSS, and JavaScript development.

PROJECTS

YelpCamp: Developed a campground listing platform connecting users with campground owners, built with HTML, CSS, JavaScript, and MongoDB.

Grid-Master : A game designed to anticipate moves, block your progress, and challenge your tactics at every turn—offering an engaging and competitive solo experience.

Tech Stack: NextJS, Redux, Tailwind CSS, Framer Motion.

Hire-Ready : An AI-powered platform that enables job seekers to practice interviews with voice-activated assistants tailored to their specific career paths and technology stacks. The application provides personalized onboarding, real-time interview simulations, and detailed transcript reviews to help candidates improve their readiness and confidence.

Tech Stack : NextJS, Tailwind CSS, Firebase.
