## WORK EXPERIENCE

**Lead Front-End Developer** Jun 2024 - Present  
*Mansior* Lagos, Lagos State

- Led front-end development for a real estate platform, improving user experience and optimizing site performance.
- Collaborated with back-end teams to integrate APIs and enhance property management functionalities.

**Full-Stack Developer** Dec 2023 - Jun 2024  
*Freelance* Lagos, Lagos State

- Developed and deployed a responsive web application that improved user engagement by 40% within 2 months, enhancing the overall user experience.
- Implemented RESTful APIs and microservices architecture, which increased application performance and reduced load.
- Utilized JavaScript frameworks like React and Node.js to build scalable applications, contributing to successful project completions ahead of deadlines.

**Front-End developer** Jan 2023 - Nov 2023  
*Adian Labs, Nigeria* Nigeria,

- Developed and maintained front-end features using React.js, contributing to a dynamic team environment.
- Assisted in debugging and testing UI components for responsive design and performance.

**Front-End Intern** Apr 2022 - Sep 2022  
*Global Axis* Lagos, Lagos State

- Supported the front-end team in building UI components and fixing bugs.
- Gained hands-on experience in HTML, CSS, and JavaScript development.

## EDUCATION

**Bachelor's Degree: Computer Science** Oct 2024  
*University of Lagos, Lagos State*

## PROJECTS

- **YelpCamp** - Developed a campground listing platform, connecting users with campground owners, built with HTML, CSS, JavaScript, and MongoDB.
- **E-Commerce Website** - An e-commerce website. Leveraging the capabilities of Next.js, TypeScript, and Prisma, powered by JavaScript, this platform serves as a digital marketplace, connecting buyers and sellers in a seamless online shopping experience.
- **Foodland** - An online food ordering application created with MERN.
- **ShareMe** - Designed a social sharing platform where users can share content and interact, built with React and Firebase.
- **Grid-Master** - A game Designed to anticipate moves, block your progress, and challenge your tactics at every turn—offering an engaging and competitive solo experience. Tech Stack: React, Redux, Tailwind CSS, Framer Motion.
